THE POWER OF GAME READY® COLD & COMPRESSION

The Game Ready® System takes RICE (Rest-Ice-Compression-Elevation) to the next level by integrating active cold and intermittent compression therapies with greater adjustability, precision, and convenience than ever before.

Faster, deeper, longer-lasting cooling** for proven therapeutic benefits:

- ✓ Reduces patient opioid consumption and may allow for earlier discontinuation of opioid medications in certain patients.^{1,2,3}
- ✓ Decreases pain and swelling.^{1,4}
- ✓ Increased post-operative range of motion in ACL patients.³
- ✓ May increase patient satisfaction with the recovery process.^{1,5}

Anatomic circumferential wraps for all major body parts, including the most common orthopedic surgery sites.

Game Ready's comprehensive line of dual-action wraps enables integrated, no-mess cold and compression therapy from head to toe. Anatomic design and circumferential coverage assure better fit, greater comfort, and more effective treatment.

Find out why Game Ready is the injury and post-op treatment system of choice for thousands of orthopedic surgeons, sports medicine specialists, special military forces, and professional sports teams around the world.
