

## SUPPORT YOUR TEAM AND PATIENTS WITH THE TOP PIB-IL PUMP.

See how the ambIT\* infusion pump helps your team get patients back to the things that matter.

### Pharmacists

Find the right pump for all your patients while saving costs and removing complexities.

- Pumps for **pediatric and adult patients**, with applications from sports medicine enhancement to surgical pain management and more
- Three **programs for used pumps** (two reusable and one disposable): disposable systems, hospital-managed reusable pumps and kits, and the ambIT\*+ program
- Avanos partners with Leiters, a 503B prefiller, to help reduce costs, waste and any local drug shortages.

### Surgeons

Employ a safe, simple PIB and patient-controlled bolus pump for multipurpose infusion therapy systems.

- Suitable for multiple procedures and treatments, including **epidural, joint surgery, C-section and rib fracture**

### Anesthesiologists

Achieve a patient-specific dose of targeted pain management that matches the therapy prescribed.

- ambIT\* has a **volumetric accuracy of ±6 percent**
- Easy programming of PIB, **delayed start and safety lockout**
- Accommodation for up to **1000 mL of local anesthetic<sup>1</sup>**

### Hospital Administrators

Improve efficiencies and patient care with a high-quality pump.

- Significantly **reduce patient opioid use<sup>2</sup>**
- **Shorten hospital stays** by 1.1 days<sup>3</sup>
- Deliver effective, **lost-lasting pain relief** from hospital to post-discharge<sup>3</sup>
- Patients are 3x likelier to report **high satisfaction with treatment** vs. opioids<sup>4</sup>

### Nurses

Receive education and training to learn how to set up, program and troubleshoot the pump.

- Resources include **hands-on product training** for clinical personnel, an interactive **training app, videos and 24/7 support**
- **Easy pump setup that does not prolong procedure time**

### Supply Chain Managers

Realize cost-effectiveness through a single source for critical care devices.

- Avanos offers the **widest selection of elastomeric and electronic pumps**
- Customized, **opioid-sparing perioperative pain management device**
- Established return program for pumps helps **save costs**

### Patients and Caregivers

Help reduce breakthrough pain and improve patients' comfort.

- ambIT\* is a **small, lightweight and portable device**
- User-friendly bolus button allows patients to easily self-administer small doses of medication

## SEE WHY HOSPITALS ARE SWITCHING TO AMBIT\*.

Switch to the pain management solution that keeps your internal team and your patients on track for better care, long-lasting relief and greater satisfaction than opioid use.

### Cost savings and efficiency with the ambIT\*+ Program

- Facilitate the best overall value with a cost-effective option compared to other disposable, single-use pumps and no capital purchase of pumps
- Reduce the time and cost investment of managing an in-house pump-reuse program
- Ensure staff can provide the right pump for each patient
- Improve patient satisfaction with follow-up calls to ensure their needs are met
- Help hospitals save costs their way: disposable systems, hospital-managed reusable pumps and kits, and the ambIT\* reusable program

### Advanced technology gives HCPs more control and confidence

- Enables the use of multiple therapies: PIB, PIB IL, patient-controlled bolus and continuous infusions
- Provides a multipurpose delivery system: pain management, antibiotic, IV therapy, chemotherapy, chronic pain, wound care, labor and delivery, and more
- Tracks all pump history to improve the hospital's regimen and protocol over time
- Maintain a volumetric accuracy of  $\pm 6$  percent
- Easily program the PIB, delayed start and safety lockout
- Set intermittent bolus rate to self-administer small doses of medication with ease

### Better care, faster results for patients

- Achieve longer infusions from ambIT to get patients past pain levels requiring narcotics.
- Use PIB IL to accomplish four- to five-day infusions using 400-500 mL of medication
- Allows the opportunity to delivery medication in a customized approach to block sensory nerves in surgical site areas without affecting motor nerves.

### Education and support for your staff and patients

- Provide your team with resources and **technical training opportunities**, including 24/7 support, hands-on training and access to an interactive training app
- Train hospital teams and care providers on how to set up, program and troubleshoot the pump

## UNMATCHED SERVICE AND SUPPORT. ALL DAY. EVERY DAY.

**PATIENT AND CLINICIAN STAFF SUPPORT** - Only with Avanos

**24/7 hotline is staffed by nurses**, training your existing and new staff, **ongoing clinician in-servicing**, pain catheter insertion training for continuous blocks and surgical site placement, **patient at-home** and clinician guides.

### EXTENSIVE LOCAL SUPPORT

Coordinated representatives and clinical experts **facilitate uninterrupted, personalized coverage and continuing success.**

### ONGOING TRAINING

Help surgeons, anesthesiologists and **staff stay current with techniques** and **keep workflows efficient.**
